

**Notice:** This application is authorized by s. 283.37, Wis. Stats., and chs. NR 151 and 216, Wis. Adm. Code. Personally identifiable information on this form may be used for other program purposes and may be made available to requestors under Wisconsin's Public Records laws and be posted on the Department's internet site.

**Instructions:** Complete the following for all permit applications. If additional space is needed to respond to a question, attach additional pages. Provide descriptions below that explain the program activities that you expect to develop and implement to comply with the Municipal Separate Storm Sewer System (MS4) general permit (<http://dnr.wi.gov/org/water/wm/nps/stormwater/muni.htm>). Section 3 of the MS4 general permit contains the compliance schedules that direct when the individual program activities need to be developed and submitted to the Department for review. The detailed programs that are developed and submitted to the Department for review may deviate from the program activities described below if necessary. The descriptions provided below are necessary for the Department to verify that the municipality's program activities comply with the permit.

### Section I: Applicant Information

Name of Municipality

TOWN OF SCOTT

Mailing Address

P.O. BOX 144

City

NEW FRANKEN

State

WI

Postal Code

54229

County(s) in which Applicant is located

BROWN

Type of Municipality: (check one)

☐ County

☐ City

☐ Village

☒ Town

☐ Other (specify)

### Section II: Local Contact Information (check one):

Name of Municipal Contact Person

DONALD L. GIBSON

Title

CLERK

### Section III: Water Quality Concerns

Yes

No

☐

☒

Does any part of the MS4 discharge to an outstanding resource water (ORW) or exceptional resource water (ERW) listed under s. NR 102.10 or 102.11, Wis. Adm. Code? (An unofficial list of ORWs and ERWs may be found on the Department's Internet site at: <http://dnr.wi.gov/org/water/wm/wqs/>)

☐

☒

Does any part of the MS4 discharge to an impaired waterbody listed in accordance with section 303(d)(1) of the federal Clean Water Act, 33 USC § 1313(d)(1)(C)? (A list of Wisconsin impaired waterbodies may be found on the Department's Internet site at: <http://dnr.wi.gov/org/water/wm/wqs/303d/303d.html>)

### Section IV: Area and Population Within the MS4

Yes

No

☒

☐

Is the MS4 within an "Urbanized Area" as defined by U.S. EPA? (See <http://www.epa.gov/npdes/pubs/fact2-2.pdf>)

If no, skip the rest of this section and continue to Section V. If yes, estimate the area served by and the population within the MS4 in an Urbanized Area (UA).

(Urbanized Area maps are available on the EPA web site at: <http://cfpub1.epa.gov/npdes/stormwater/urbanmaps.cfm>)

Total municipal area (in square miles):

15.45

Total municipal population (in year 2000):

3712

MS4 service area within Urbanized Area (in square miles):

1.22

Municipal population within Urbanized Area (in year 2000):

1230

### Section V: Potential Permit Exemption

Yes

No

☐

☐

Section NR 216.023, Wis. Adm. Code, allows certain MS4s that have less than 1000 people residing in an urbanized area to be waived from having to obtain municipal storm water permit coverage.

Do you believe that the MS4 may be eligible for this potential exemption?

See ATTACHED

**Section VI: Summary of Municipal Storm Water Program Activities**

Describe the programs or activities the municipality is doing or will do to comply with the requirements of the MS4 general permit. Attach additional pages if necessary.

**A. Public Education and Outreach**

Describe the public education and outreach program activities that the municipality will implement to comply with section 2.1 of the MS4 general permit.

**B. Public Involvement and Participation**

Describe the public involvement and participation program activities that the municipality will promote to comply with section 2.2 of the MS4 general permit.

**C. Illicit Discharge Detection & Elimination**

Describe the illicit discharge detection and elimination program authority and activities that the municipality will develop and implement to comply with section 2.3 of the MS4 general permit.

**D. Construction Site Pollution Control**

Describe the construction site pollutant control program authority and activities that the municipality will develop and implement to comply with section 2.4 of the MS4 general permit.

**E. Post-Construction Site Storm Water Management**

Describe the post-construction storm water management program authority and activities that the municipality will develop and implement to comply with section 2.5 of the MS4 general permit.

**F. Pollution Prevention**

Describe the pollution prevention program activities that the municipality will implement to comply with section 2.6 of the MS4 general permit.

**Section VII: Certification**

I hereby certify that I am an authorized representative of the municipality that is the subject of this application for general permit coverage, and that the information provided is true and complete, to the best of my knowledge. I understand that Wisconsin law provides severe penalties for submitting false information.

Madison, WI 53707-7921

## Section VI: Summary of Municipal Storm Water Program Activities

### A. Public Education and Outreach

Town of Scott has joined the Northeast Wisconsin Storm Water Consortium, which is an organization to provide information on this issue to all affected areas in the Fox River basin. In addition, the Town will provide a summary of this program in the annual Town status reports and posting on its web page.

### B. Public Involvement and Participation

All property owners will be notified through mailings in conjunction with utility bills identifying the activities required. Their issues will be clearly reviewed as part of public hearings on rezoning, land divisions or subdivision development. Proper notices through newspaper publication and posting in public places will be used when appropriate. Individuals will be recruited to form task groups to resolve specific issues.

### C. Illicit Discharge Detection & Elimination

Surveys will be made on a routine basis to determine the location of any discharges into the storm water drainage system. An analysis of each discharge will be made to determine the source and the content of the flow. Appropriate ordinances will be developed within 12 months to define frequency of the surveys and characteristics to be observed. A yearly inspection of roads and ditches will be done by the Town Board.

### D. Construction Site Pollution Control

Current Town of Scott procedures use policies and Ordinances of Brown County. The recently enacted Storm Water Management Ordinance defines procedures to be used in planning, developments and construction activities. A separate construction site pollution control ordinance is under study and will be implemented in one year. Construction site inspection and documentations will be undertaken by the Building Inspector following best management practices.

### E. Post-Construction Site Storm Water Management

The Town of Scott has established a permitting process to control the use of any Town owned right of way for any use other than storm water runoff. Further development of policies will be implemented after the construction site ordinance is in place. Storm Water Management Ordinance has been approved as of 06/01/06.

### F. Pollution Prevention

Town of Scott policy is to allow no subdivision development in areas that do not have public sewer and water. Since 1980 the Town has installed sanitary sewers that now serve 83% of the Town residences. Each individual site not served by sewer and water is evaluated to determine impacts on storm water runoff before a building permit is granted. All new subdivisions require storm water management, including curb and gutter and storm sewers. A program is in place to notify all residents who dump any yard residues in drainage areas of proper procedures. Permits are also required from Brown County Zoning before building is allowed in the proximity of any navigable stream.
